READING MATTER ON EVERY PAGE

Varieties.

See advertisement of Mechanic and Engineer.
There is to be a Democratic ratification meet-
ing at Petroleum Centre on Wednesday even-Petroleum Vesuvius Nasty is on a lecturing
tour again. He declaims at Erie on Thursday
evening.Strawberries have entirely disappeared from
market, being supplanted by cherries, rasp-
berries and blackberries.The stone abutments of the new railroad
bridge over Oil Creek at this point are being
nearly completed. When finished this bridge will
be one of the finest upon the road.The four new dwelling houses being erected
on Perry street by Geo. S. Stewart, are rapidly
approaching completion. The foundation of a
new building upon the corner of Perry and Oak
streets is also laid.The present located term has had a tendency
to create a demand for thin fabrics for summer
use—the dry goods dealers say their greatest
stock in muslin—owners of dogs should remem-
ber that the canines also need muslin.Besides the usual trips of the regular lines of
gas between this point and Pleasantville, Ed-
ward, we carried two large four-horse loads of pas-
sengers to Pleasantville yesterday. This is not
the last of dull times in that direction.On Saturday night last two men, one of
whom was very drunk, got into a row on Upper
Rue, and while Deputy Sheriff Lewis
was trying to separate them, he was pitched into
the water roughly handled by a party of roughs.On Saturday afternoon last a young man
in the employ of Charles Carson, Upper
Cherry Run, was nearly suffocated by
a weight at work clearing out the sediment from
the bottom of an oil tank. At first accounts, he
did not fully recover.Where are the street cleaners? Since the
out of duty our streets have been in an ex-
ceedingly filthy condition. Papers, exploded fire-
crackers, paper shells and other debris of a well
elected Fourth of July the gaudies and do not add
materially to the looks of the city.The project of organizing Junior Grant
1st Colfax Club in Titusville, is talked of—
an organization, composed exclusively of
men, electing their own officers, inviting
their own speakers, and managing their own af-
fairs, would exert a very favorable influence up-
on the canvass. Set the ball in motion.The thermometer stood at 105° in the shade
yesterday afternoon at half-past three o'clock,
the past ten days the mercury has not ranged
for 95°, and the breezes for which our hills
have noted have failed to make their appearance
as either clerk will please note this fact. A
few "down" these hot afternoons would also be
epidemic.The Republicans of Erie County held their
election on Saturday. The votes for
representatives were confined to four candidates,
Held, King, Cutler and Souther. Mr. King
was elected out of the city 28 ahead of Held and
7 ahead of all. Assemblyman Moorehead re-
ceived by far the greatest vote, having 20 over
competitors. The full returns are not yet re-
ceived.In view of the recent railroad disaster at
Mills a meeting of citizens was held there
the 10th inst., at which resolutions were
adopted condemning the company for the defective
construction of the bridge, and censuring the
writer of the Erie Dispatch, for false and errone-
ous statements concerning the condition of the
structure. The proceedings substantially accord
with the statements made by Mr. N. R. Bates of
the city, in the letter which we publish this
morning.The "Morning Star" lies in twelve fathoms
water; her bow to the north-east. Three buoys
are over her bow, walking beams, and stern,
one indicate where she lies. About three-
quarters of a mile south-west of the steamer is
a wreck of the "Cortlandt," two of her spars
alone to be seen above the water. Divers from
the vessel engaged in wrecking and raising
the sunken hulk report the bottom of the lake there
is a very soft mud, into which they sink as
easily as newly fallen snow. This makes the recov-
ery of the lost more difficult and uncertain. But
three bodies have been raised and identified.The business prospects of Titusville never
looked so encouraging as at present. There are
constant accessions to the resident population,
many new and elegant houses are in course of
erection, no dwellings are vacant, the houses have
they can accommodate, mechanics are cease-
lessly employed, every branch of trade prospers,
and greenbacks are in plentiful circulation.
With a corresponding progress for two or three
consecutive years, both population and trade
will be doubled without the accessories of a new
country. Nevertheless we shall always have faith in its con-
summation.The "Morning Star" lies in twelve fathoms

consecutive years, both population and trade
will be doubled without the accessories of a new
country. Nevertheless we shall always have faith in its con-
summation.The authority to hold 500 acres is increased to
1,000 acres. By the act of 12th of April, 1859,
section 1, this company is exempt from any tax
on individuals, but is liable and subject to a cap-
ital stock at the rate of one-half mill for each one
per cent. of dividend; and by the act of the 30th
of April, 1864, it is subject to a tax of three per
cent. on its annual net earnings or income.To CURE SKINRAKE.—A Philadelphia physi-
cian prescribes the following treatment: "Let
the person thus affected be removed to a cool
and private place, his clothing taken off, and the
body rubbed from head to foot with large pieces
of ice at the same time that pieces of ice are
kept in their arm pits. This simple treatment,
if steadily persevered in, will cure cases which
are otherwise refractory. With the resuscitation
of the Gas Company, which will soon be effect-
ed, we hope arrangements will be made for
cleaning the principal streets at night. The mains
are already laid, and the project of erecting
gas posts and lighting the town will involve
but trifling expenses."For Commonwealth, Attorney-General Brew-
ster and Deputy Attorney-General Newlin.The Railroad passenger at Union Mills—
Comments of a Passenger.

Editor Morning Herald:

In looking over the telegraph account from
Erie of the recent railroad disaster near Union
Mills, published in your paper of the 10th, it calls
to mind so forcibly the strong efforts of those
connected with the road to cover up and conceal
the real cause of the disaster, and to belittle the
damage done and the injuries sustained, that I
can scarcely refrain from a few comments. The
real cause of the accident was beyond question
the unsound, the rotten condition of the tim-
bers throughout composing the bridge. In exam-
ining the bridge the next morning, I found it
completely in fragments, scarcely two pieces re-
maining together as originally placed, in the
whole structure, and in very many places one
could clutch from the timbers with the hand,
half-torn of rotten wood, particularly from where
the different pieces came in conjunction with each
other, as braces to struts, &c., and whose
strength and soundness were most essential. The
story of the nuts of bolts having been found
unscrewed, was told too soon, some hours before
the timbers and debris were removed from the
creek, so that the condition of the bolts could be
discovered, and was doubtless just about as true
as another assertion made to me by one of the
service of the company, the night of the disas-
ter, when the prospects were that we would not
be likely to again visit the scene, viz: that the
bridge had just been overlaid and painted
up, when in fact it had not been touched, either
by paint or other repairs, as the next morning's
light plainly revealed. It is a plain case, a very
detective old bridge, as scores will testify, and no
company is in any possible way to be excused for
allowing a bridge to be passed over that they do
not positively know to be safe beyond a possible
peradventure.As to several passengers having been robbed, I
do not believe there was the slightest ground
for any suspicion that any one disposed person
was anywhere near. Having been present assist-
ing to extricate the passengers from the wreck,
and having mingled freely among them afterwards,
I fail to hear the first utterance of any person
that the canines also need muslin.What PAPER MUST BE STAMPED.—As the
validity of legal instruments depends upon their
being stamped, required by the Revenue law,
we publish the following, which may be carried in
the pocket-book for convenient reference.

All notes and evidences of debt, five cents on

\$100, if under \$100, five cents; if over \$100,

five cents on each additional \$100 or part thereof.

All receipts for any amount without limit over

\$20, two cents; if \$20 or under nothing. All
deeds and deeds of trust, fifty cents on each \$500in value of the property conveyed of the amount
secured; when a deed is fully stamped, it isstamped as a great public misfortune. Daily
communication between the points indicated,
is of as much consequence to the business
men of this community and Oil Creek as any
other man in either which they enjoy. Where
the responsibility for its discontinuance rests we
are not advised, but an effort should be made to
have it made for its restoration. When our needs
are fully understood it will not be denied.HYMENEAL.—We publish a "memorial" item
of great interest to-day. It almost amounts toa truism. It is a good thing. We congratulate
the "Major." He has taken our advice.But like Joe Gatcock, he has been "sly, deyl-
ish" about it. He should be, and the 4th ofJuly was just the day to give up his "indepen-
dence." Sub�gabulot is not very risque, when
you can "kiss" the rod and "huz" the chain.

SALARIES.

CLARK, McEWEN & CO. have now in store 100
Boxes Choice Lemons.AT ATKINS'—A great curiosity, consisting of
cigars at one hundred dollars per box! Call
and see.GRANGER & CO. have just received 100 bbls.

grades in Stone and for sale cheap.

CLARK, McEWEN & CO. Fireworks at Doty & Fuller's.

If you want a genuine Havana Cigar go to
Hill's, do not go to Hill's.ANY one wishing to buy first class goods in
the grocery line can find them at Clark, Mc-
Ewen & Co. Our trade is so large that
we are constantly changing our stock, and of
course our goods are fresh and new. All goods
sold by us are warranted. Any person dissatisfied
with goods purchased of us can return them
and have their money back. Our aim is to sell
goods as low as we can, and to have them
when they are represented to be, and to please
our friends and patrons. Give us a trial.THE NEW YORK POST, CALIF., JULY 14.
NEW ARRANGEMENT FOR DISTRIBUTING THE
MAIL.—The new system of conveying and
distributing the mails went into operation yester-
day. A postal car attached to the express
train from New York to Buffalo and the trains
from Buffalo to New York, running through to
the city. The mail that now goes to the distin-
guished offices, to be there sorted and forwarded,
will then be distributed and left at the various
post-offices along the route, instead of being
left over for distribution at Albany, Buffalo, &
the same time. From New York to Chicago. This arrangement
which has been devised by Postmaster General
Biddle, is intended to facilitate the rapid deliv-
ery of mail matter, and will doubtless prove
to be a great convenience to the business inter-
ests of the country, and to all who use the United
States mails.THE COMMON COUNCIL have ordered all the
walks throughout the city to put in good repair.
Those liable to this duty, and who neglect to
perform it, are advised that they incur the
penalty of having to pay twenty per cent.
additional tax for such omission. That is to say,
the city will do the business for them, and charge
them for the cost of such repairs.THE COMMON COUNCIL OF TITUSVILLE,
PA., have voted to increase the tax on
several kinds of tobacco.SEVERAL houses and lots in Titusville, in good
neighborhoods, for sale very low.

MYERS & SHERMAN, Fletcher's Block.

JOHN P. BRENT, of the firm of BRENT & CO.,
has been appointed to the office of Collector of
Customs for the port of Titusville.THE NEW YORK TIMES, CALIF., JULY 14.

Titusville Morning Herald.

(CONSOLIDATED FROM FIRST PAGE.)

In the United States, native or naturalized, must be liable to arrest and imprisonment by any foreign power and done or words spoken in this country. And if so arrested and imprisoned, is it the duty of the Government to interfere in his behalf?

Fourth. Of all those who were faithful in the trials of life there were none entitled to more especial honor than the brave soldiers and seamen who endured the hardships of campaign and strife, and imperiled their lives in the service of the country. The bounties and pensions provided by law for these brave defenders of the nation are obligations never to be forgotten. The widows and orphans of the gallant dead are the wards of the people, a fact too long overlooked by the nation's elected agents.

Eleventh. Our country, migration, which in the past has added so much to the wealth and development of the resources, and the increase of power of this nation, "the asylum of the oppressed of all nations," should be fostered and encouraged by a liberal and just policy.

Twelfth. This convention deems its sympathy with all the oppressed people who are struggling for their rights.

On motion of General Carl Schurz, the following additional resolutions were unanimously adopted as part of the platform:

Resolved, That we highly commend the spirit of magnanimity and forbearance with which the men who have served in the rebellion, but now frankly and honestly co-operate with us in restoring the peace of the country and reconstructing the Southern State governments upon the basis of impartial justice and equal rights; we received back into the communion of the loyal people; and we favor the removal of all disabilities and restrictions imposed upon the rebels in the same spirit of leniency as their spirit of leniency will direct, and as may be consistent with the safety of the loyal people.

Resolved, That we recognize the great principles laid down in the immortal Declaration of Independence as the true foundation of Democratic government, and we had with gladness every effort toward making these principles a living reality on every inch of American soil.

All sorts.

R. L. Maitland and family, to avoid traveling in a crowded steamer from New York to New Orleans, paid \$1,000 for a special boat on Wednesday last.

Information from all points of the North-west is to the effect that crops of all kinds look more promising, while the breadth of ground planted is largely in excess of any previous season.

Gov. Fairchild, of Wisconsin, has passed a proclamation offering a reward of \$500 for the arrest of Wm. Kid, who murdered Miss Kate Jordan a week since by cutting her throat with a razor while riding with her in a carriage.

The King of the Sandwich Islands, in consideration of the philanthropic services of Captain Thomas Spencer, of Hilo, in distributing relief to the sufferers by the recent volcanic eruptions, has made that gentleman a Knight of the Order of Kamehameha First.

In Boston, a fire-shaking risk is now in process of erection. A company, with a capital stock of one hundred thousand dollars, has purchased the lot of land on Tremont street, between Chickering's factory and the Metropolitan station. The building will have accommodations for one thousand five hundred visitors, and seats for five thousand spectators.

The editor of the *Cerro Gordo* (Iowa) was taken out of the office bags as a party, and, as a reason, said, that "Stephen has been to work for us all winter and wanted his pay, and we thought, after he had been a proprietor a short time, he would understand that paying him was not so easy."

A young rhinoceros has just been landed in this country, the first for twenty years. He will not get his growth for some twenty years, but weighs 3,000 pounds, and eats daily two bushels of corn, one bushel of potatoes, and 300 pounds of hay, drinking fifteen to twenty buckets of water.
